Monthly Message

The Wutherich & Co. Composite was down 0.7% in May versus the S&P/TSX being up 2.8%.

“Sell in May and Go Away” certainly seemed to affect some of our stocks during the month. Recent quarterly results were reported for most of our companies and there was a mix of excellent numbers combined with some weaker outcomes. A few of our names have short-term challenges which, for now, look surmountable.

With cash on hand plus the proceeds of the HIBB takeover coming to about 13.5% of the portfolio, we have a lot that we can deploy in new and existing positions. The summer is typically a weak time of year for stocks: Think “Sell in May and Go Away”. Great by us. We’ll take advantage of any weakness. While many of our favourite names have appreciated significantly recently, we have some ideas on where to put the money. The additions will likely be Canadian stocks as we generally find better value on this side of the border. We think the current portfolio, with one or two additions, has the potential to deliver strong long-term returns.

The following table illustrates the performance of the Wutherich & Co. Composite to the present:

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

Your account with us

Wutherich & Company is an independent investment counsellor. We do not hold assets for our clients, but simply exercise trades over your account as per an agreed upon investment policy statement and portfolio management agreement. Your account is held at [National Bank Independent Network](#) in your name. Withdrawals from that account can only be sent to you at your designated bank account and/or address of record. Wutherich & Co. may also do withdrawals from your account to satisfy any fees that may apply to your account. All accounts are cash accounts. Unlike hedge funds, we do not use leverage or derivatives to manage your money. Also, we are not a fund company – if you are a private investor with us, your account will mirror the Model Portfolio but your investments are not pooled.

*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
